Fall 1986

Graduate program's 50th year

# Design students help restore Menomonie's past

Work of nine Stout art students may someday bring downtown Menomonie into the past. The students, who are studying design, have drawn proposals for the historic renovation of the downtown district — proposals which have the potential to someday be put to use.

A large portion of downtown Menomonie, along with three buildings on the Stout campus, is being nominated as a district to be placed on the National Register of Historic Places. Claudia Smith, associate professor of art at Stout and conductor of the architectural survey for Menomonie's Landmark Commission, initiated the student project as one which could be both educational for the students and beneficial for the downtown merchants by helping them to visualize their building's potential.

"We're interested in preserving the historic character of the buildings," Smith said. The nominated district's boundaries run from the corner of Broadway and Main east to the Valley Bank parking lot at Fifth Street. Also included in the district are Stout's Harvey Hall, Bowman Hall and Ray Hall. "These buildings contribute to the character of downtown Menomonie," Smith said. "They reflect the philanthropic spirit of Menomonie's leaders of the late 19th and early 20th centuries."

Menomonie has a historical merging of educational and commercial development, said Roxanne Owens, who conducted the architectural survey with Smith. This link between town and school would be furthered with the historic district designation of the buildings.

The students began working on the project last fall. Through an independent study conducted by Smith and art department design instructors Magdalena Laszkiewicz and Harold Newton, the group has assessed and discussed the potential of each building in the district. Their study culminated in the presentation of proposals at a public meeting, sponsored by Menomonie's Landmark Commission, for those interested in the significance of the historic district.

"We'd like to propose modifications to bring the buildings more in line with their historic past," Smith said. "Most of the second floors are still intact; the first floors have often been modified. There's nothing physically wrong with these changes, except that the architectural style doesn't work for the buildings."

Many of the student proposals included emphasizing the existing intricate brick design on some buildings; and introducing etched and stained glass windows,

wrought iron fixtures and signage that is perpendicular to the building and can be seen by pedestrians or vehicles from either direction.

Smith emphasized that the downtown area needs a continuity of style. "The students' purpose is to convince people of the potential of downtown Menomonie," she said. "We are making suggestions for design improvements. The building owners could, if they want, talk to us for further information or design assistance. Our main purpose was to give the students an opportunity to deal with a real design problem — with the knowledge that their suggestions may be implemented."

The State Review Board for Historic Preservation in Madison recommended the district as one to be placed on the Register. After official approval at the federal level, building owners who undertake historic renovations may qualify for tax credits.

Gerald and Emma Talen, of First Bank and Trust, are eager to start renovating their building, which is an architectural stronghold in the district.

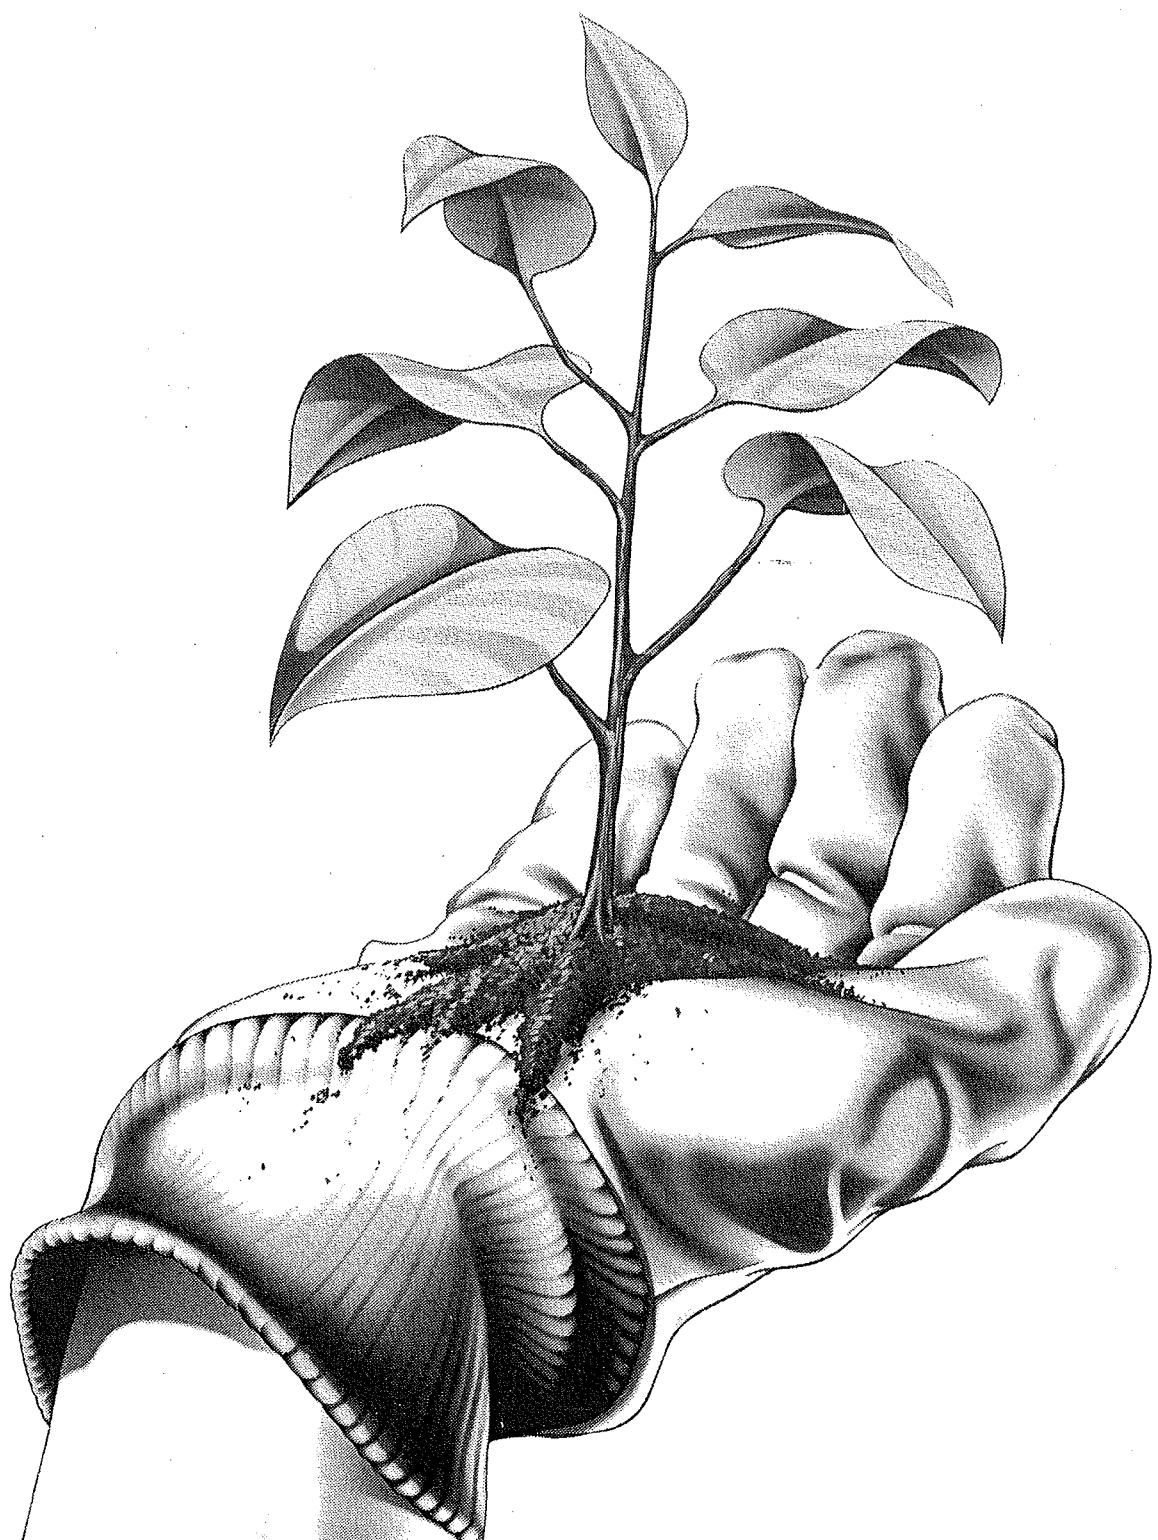

"The nomination not only means tax incentives, but it will also improve the looks and attractiveness of downtown Menomonie and, hence, the business climate," said Emma Talen. She feels the historic renovation of downtown will provide the proper environment to blend with the Mabel Tainter Memorial building, which is already listed on the National Register.

Smith emphasized the need for the people's support in this renovation project. "We need the people in the district behind the spirit of creating the atmosphere," she said. Paul Lusignon from the State Historical Society and Ann Raid, from the West Central Regional Planning office in Eau Claire, were pleased with the involvement and interest of the city as well as the students.

Smith, Laszkiewicz, Newton and the students are helping the downtown merchants visualize the potential of the district. Downtown Menomonie could be a very charming place, Smith said, as is shown by the students' work. The project was done with the care and knowledge that, long after these students graduate, the city may be living with their creative contributions. □

# Applied Botany

*Course emphasizes lawn and garden care*

Every year when the temperature finally begins to creep upward and the days steadily get longer, people's thoughts shift toward outside activities. At Stout, students are learning the methods and principles of correct lawn and garden care, one of the most popular and most satisfying outdoor activities, in a course titled "Applied Botany."

Russ James, associate professor of biology, discusses such topics as water and soil management, light and temperature management, seed characteristics and pest control during the first part of the course. The students learn about all types of plant growth—indoor plants, flowers, trees, grass, shrubs, fruits and vegetables.

During the second part of the course, the majority of the work is done outside. "The only way to learn is by doing," James said. So the students learn and practice their pruning, grafting, harvesting and landscaping skills.

The course culminates in a comprehensive final project which gives the students an opportunity to use their creativity as well as their skill. Last year the students were given a drawing of a fictional mall as the final project and told to give it a complete landscaping—inside and out.

"There's a lot that goes into the decision-making process of landscaping," James said, "but the key to success is planning." Owners should take into account the soil they're working with, the amount of available sunlight, the slope of the land and the amount of traffic the lawn will receive before selecting plants for their yard. And plant selection will naturally vary depending on the amount of money one is willing to put into the landscaping and its upkeep.

"If you're starting from scratch and just planting a lawn, it's worth your money to buy good seed," James said. "When it comes to grass seed, you get what you pay for."

James emphasizes the fact that one needs to know the characteristics of each type of seed. "Kentucky Bluegrass is a fairly universal seed, but people need to understand that it needs a lot of water and only limited amounts of traffic," he said.

Russ James, associate professor of biology, explains the technique of grafting to Kathy Schneider, a student from Ridgeland.

When choosing outdoor plants and shrubs, people in this area must remember to buy winter-hardy plants. "Many times, people will order something from a seed catalog that is mailed to 10 different states and then wonder why it didn't survive in their yard," he said. Garden selections such as mums, creeping phlox, and certain varieties of alyssum, will generally give beauty to your Wisconsin yard year after year.

The size of the yard should be considered when deciding which types of trees to plant, James said. Several examples of smaller trees which will enhance a small yard are flowering dogwood, Russian olive, Japanese maple and crabapple. Trees and shrubs should also be planted with respect to the amount of sunlight available in that area, James said. Most junipers, for example are not shade-tolerant.

The environmental condition of the city is much different than that of rural areas. Therefore, James suggests checking for plants which survive best in your particular area of residence. Red osier dogwoods and hydrangeas are good selections for those living in the city.

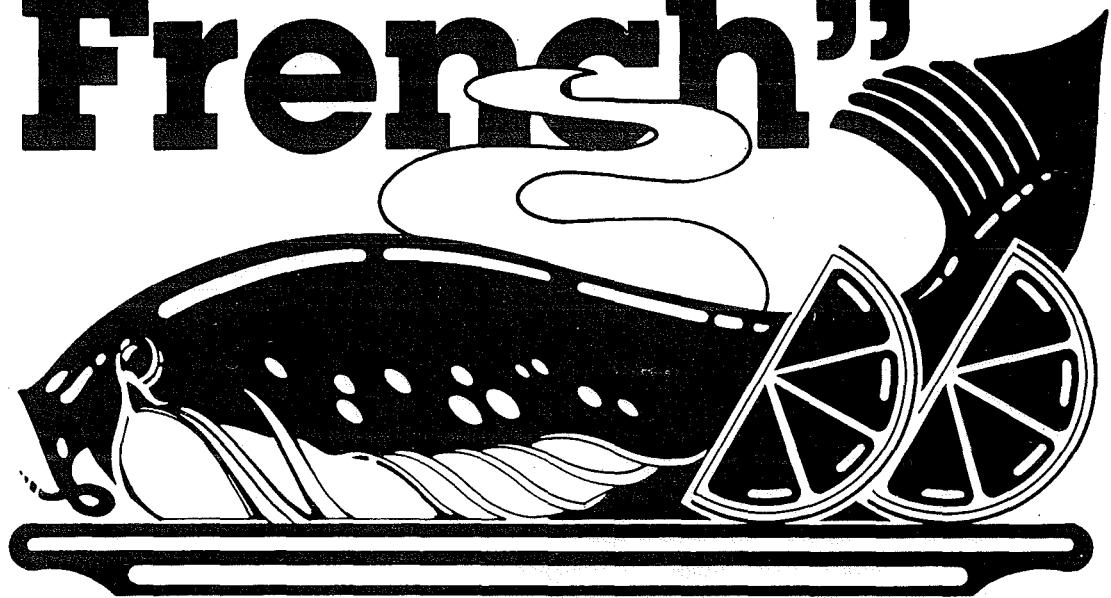

Besides considering the specific conditions of your yard and its loca-

tion, James suggests determining the overall picture of how you want the final project to appear. Different plants project different images, so the plot as a whole, rather than each individual selection, should be taken into consideration when making decisions.

Flowering plants, fruiting plants, evergreens and vines each give a different look to the landscaping of a yard. Small annuals such as marigolds, wax begonias, snapdragons, periwinkle and asters can be easily purchased each year to add to the appearance and color scheme of a specific area.

Your chance for success in landscaping is greatly increased, James reminds his students, if you keep one simple principle in mind: In nature, plants with similar requirements are found growing together; therefore, determine the environmental characteristics for your yard and then choose plants that are adapted to these conditions. This will help you in reaching the goal of creating a natural and artistic appearance for your yard. □

**Students served  
“Menu  
French”**

When people dine in an ethnic restaurant, they often assume that the waiter or waitress can correctly pronounce and translate the foreign items on the menu. However, in many cases, this assumption does not hold true and often results in a false or, at the very least, embarrassing translation.

At Stout, hotel and restaurant management students are learning to avoid such uncomfortable situations by enrolling in a course titled "Menu French." Designed mainly to enhance the training of hotel and restaurant management students but open to all majors, the course concentrates on the pronunciation and comprehension of words and phrases common in the preparation of French meals.

The one-credit class, which was first offered last fall, has no prerequisite and does not cover grammar or sentence structure. It concentrates on French terminology used in the preparation and presentation of food—ideal for hotel and restaurant students as well as those planning on traveling to France.

Susan Hall, the instructor of the class, believes in the importance of the course to hotel and restaurant management students. "With such a strong major here, we turn out many students who are aspiring to work at a level where it's important for them to know the language and the correct pronunciations," she said. "Once the students get to a certain level of food preparation, the French language dominates in the kitchen and on the menu."

Through the use of cassette tapes and vocabulary and pronunciation practice, the students learn to understand and pronounce French

"Once the students get to a certain level of food preparation, the French language dominates in the kitchen and on the menu."

— Susan Hall

food terminology, to use correct phrases when ordering in a French restaurant, to translate recipes written in French and to understand French restaurant customs.

"The French people have a very strict social code," said Martha Wallen, associate professor of speech and instructor of French at Stout. Depending on where you are and who you are dealing with, they can also get quite offended by a mispronounced word or an unobserved custom, she said.

"The most important restaurant custom in France is that the diners should never have their hands in their lap," Wallen said. "That is unforgivable." Other traditions such as never buttering bread and never putting bread on a plate deviate so much from American custom that it's easy to see how an ignorant tourist can unknowingly offend the proud French.

Gerane Dougherty, dean of the School of Liberal Studies, initiated and encouraged the idea for the class. "It irritates me a lot to see so many simple grammar mistakes on menus," she said, using the example of a menu that offers "soup d'jour" instead of the correct "Soup du jour."

"When you're trying to create the impression that you have an elegant French menu, to introduce mistakes

in that menu is counter-productive," she said. "We want our students to be able to handle French at least minimally—to be able to write a menu correctly and pronounce the items they prepare and serve."

Wallen told of previous years at Stout's annual Haute Cuisine dinner. Too many people involved couldn't even pronounce the name of the dinner ("oat kwi zeen"), let alone the menu items, she said.

"If we're classy enough to even have an Haute Cuisine dinner, then we should be able to pronounce it," Dougherty said.

"We always had a student announce each course before it was served," Wallen said, "And it just never came out quite right. One time the governor was here and he noticed the difference. You can't teach someone who's never had French to speak it correctly 15 minutes before the meal."

Hall has also encountered mispronunciation problems—the result of a perfectly talented chef or waiter who cannot speak the French language. "With this class, we hope to save our students the misfortune of mispronouncing words or names when it really counts," she said. □

# Stout graduate program is half-century old

On March 14, 1935, Gov. Philip La Follette signed legislation authorizing the Stout Institute to begin offering graduate work.

Initial enrollment during the summer of 1935 totaled 59 students. Since then, approximately 6,500 students have completed graduate work from Stout in 16 programs.

This spring a celebration marked the 50th anniversary of graduate work at Stout.

Larry Wright, associate dean for graduate studies and curriculum, said Stout's graduate program came about, in part, because of alumni. "In the early 1930s, the (Stout) alumni urged President Burton E. Nelson to incorporate graduate work at (what was then) the Stout Institute," Wright said. "President Nelson, along with the alumni, was able to make a sufficiently strong case. The Stout Institute was authorized to offer graduate work by the legislature and this authorization was signed into law by the governor."

Nelva Runnalls, dean for curriculum, research and graduate studies, said Stout is the second oldest graduate institution in what is now the University of Wisconsin System. "Only Madison, which was designated as a graduate institution in the state constitution, has a longer history," Runnalls said.

Runnalls said the first graduate degrees offered by Stout were in industrial education, soon followed by degrees in home economics education and vocational education. "These three degrees are still offered by Stout," Runnalls said. "The vocational education master's degree is the largest program of its kind in the nation and the programs

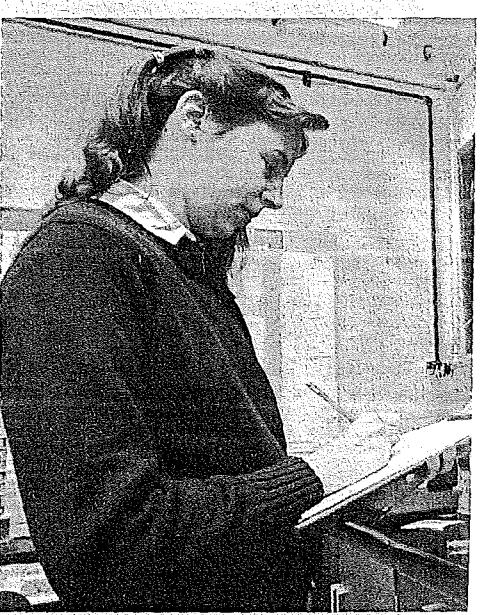

in home economics education and industrial education are both among the top three programs in the nation in enrollment."

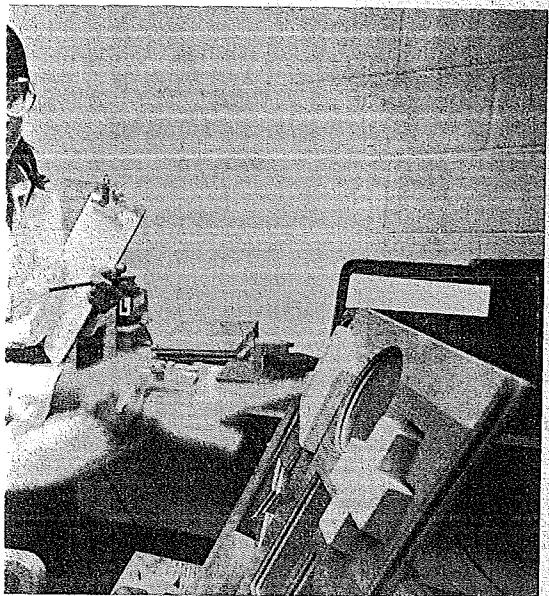

Runnalls said that Stout takes a specialized approach in offering its graduate degrees. "All the graduate programs at Stout are professional programs, not oriented to a discipline, but requiring students to enter with undergraduate preparation in disciplinary areas," she said. "Programs are focused on preparing for careers. An opportunity is also provided for adults to change the direction of their careers by enrolling in a program different from their original area of preparation."

Runnalls said that while UW Madison plays a key role in graduate education, the other degree-granting institutions in the UW System also make an important contribution. "All of Wisconsin is proud of the major research institution and the world-class graduate school at Madison," she said.

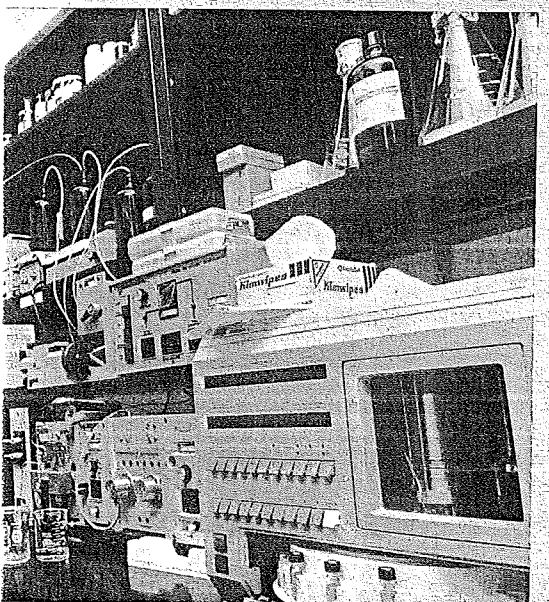

"What is not commonly realized is that more than half of the graduate students in the UW System are at other institutions, not at Madison; and of the Wisconsin residents who are graduate students in our system, seven out of 10 go to institutions other than Madison. Almost one-fourth of the master's degrees ever conferred by the institutions which now form the UW System have been awarded by institutions in the university cluster."

She also added that Stout has conferred more master's degrees and more education specialist degrees than any other university cluster institution. □

Counter clockwise from upper left: Two school psychology graduate students, Teresa Pingel MED '85, (front), Stewartville, Minn., and Nalini Dube BA '84, Princes Town, Trinidad, West Indies, practice testing procedures. Andrea Przybilla BS '82, St. Cloud, Minn., runs a lactose analysis on a high performance liquid chromatograph. She is working toward an advanced degree in food science and nutrition. Katy Forsythe, Menomonie, works with specialized equipment in the university's Communication Center as part of her studies in media technology. Susan Berg Herbach BS '76, a graduate assistant working toward a master's degree in home economics, serves as a head teacher for 3-and 4-year-olds in Stout's Child Study Center. She is pictured here with Becky Podmolik, daughter of Amy and David Podmolik. Gary Lewis, Wausau, spends part of his time working at 3M, which includes operating this air sampling device. Lewis is pursuing a graduate degree in safety.

# Making news

## Krueger and Thomas get teaching and service awards

Charles Krueger, an associate professor of industrial management is the recipient of this year's Outstanding Teaching Award from the university and Ruth Thomas, a placement counselor, is the recipient of the Outstanding Service Award.

This is the third time both Krueger and Thomas received the awards, which were presented during spring commencement ceremonies.

Krueger has been on the Stout staff for 17 years and Thomas has been associated with Stout's Office of Career Planning and Placement for about 10 years.

Through the years, Krueger has taught 20 different courses on subjects such as architectural design, communications, production management and organizational leadership. Krueger has served as an outside consultant and trainer for more than 25,000 managers, supervisors and executives from more than 500 different organizations.

As placement counselor, Thomas has helped thousands of students and alumni find employment. Many alumni continue to correspond with her after leaving Stout. Thomas serves on the Alumni Awards Committee at Stout and belongs to the Wisconsin Career Planning and Placement Association, for which she is past secretary. □

## Lawrence seeks alumni boosters

Rich Lawrence, the new head football coach at Stout, invites all alumni to join the Blue Devil Football Booster Club. The club has been reorganized on a new format and as of this date has had an election of officers and the establishment of a booster drive. The new officers are Mark Peddecord, president; Mike Ritland, vice president; and Charlie Kell, secretary-treasurer. For further information, please contact Lawrence, in care of the football office or call (715) 232-2203. □

## Hall of Fame to add three

Three outstanding athletes who participated in baseball, football and cross country have been named to Stout's Athletic Hall of Fame.

They are Mike Dunford, who was quarterback for the 1965 WSUC championship Blue Devil football team; Barney Klecker, who has set world records in various cross country events since his graduation; and Nick Misch, who was drafted by professional teams in both baseball and football.

Dunford, currently managing director of an executive placement firm in Chicago, was a stand-out quarterback for the Blue Devil football team from 1964-67.

His season records include the highest completion percentage (66.3) in 1965; most yards gained rushing and passing (1,446) in 1964; and most touchdown passes thrown (16) in 1965. Dunford's career records at Stout include the most yards gained rushing and passing (3,970); most touchdowns achieved scoring and passing (42); and highest average per play (6.13).

Klecker currently holds the world record in the 50-mile run and has twice won the Klondike cross country snowshoe race held in Wisconsin.

While at Stout, Klecker was a four-time letter winner in both track and cross country and was selected as most valuable runner during his senior year in 1973. He served as head cross country coach and assistant track coach at Stout from 1975-76. A graduate in hotel and restaurant management, he currently works as hospitality instructor and business marketing coordinator at Normandale Community College in Bloomington, Minn.

Misch was signed by the Detroit Tigers to play baseball in a North Carolina league in 1971 and was also drafted by the Edmonton Eskimos of the Canadian Football League for his football talents.

While at Stout, Misch was a three-year letter winner in both baseball and football and was named MVP in both sports. He was named all-conference halfback in 1970 in football and all-conference in baseball in 1971. Since his graduation, he has been a teacher and coach at Rich South High School in Illinois, where he has served as head coach of football for eight years, head coach of baseball for six years and head coach of softball for two years.

The three athletes will be recognized at a 9:30 a.m. reception and brunch on Saturday, Sept. 13 in the Crystal Ballroom of the Memorial Student Center. The Hall of Fame game between the Blue Devils and Moorhead State will be played at 1:30 p.m.

Reservations for tickets to the brunch can be made by calling University Relations at (715) 232-2381. □

# *Graphic arts launches major equipment campaign*

A fund-raising campaign to equip a new \$3.1 million graphic arts facility has been announced by Stout.

The university plans to open the new 57,000 square-foot facility in January 1987, according to James Herr, program coordinator. About 37,000 square feet will be devoted to classrooms and laboratories.

"This is the first time in the history of the program that we have gone outside the university for substantial help," Herr said. "Only \$150,000 was available for equipment, far short of the \$1.7 million we requested in the planning stages."

"Our program is the second largest in the country. A successful drive will help us maintain our momentum."

Herr said the national campaign will target five groups—the graphic arts industry, private foundations, friends of the university, graduates of the program and parents of students.

Donations are tax deductible through the Stout University Foundation Inc. A brochure explaining the campaign has been developed. Further information regarding the campaign can be obtained by calling Herr at (715) 232-2232.□

# *Six faculty retire*

Six Stout faculty members with many years of service to the institution have retired.

They are John Faris, professor, physics; Harold Halfin, professor, industrial and marketing education; Louis Tokle, associate professor, social science; Marcia Metcalf, professor, apparel, textiles and design; Bob Behling, associate professor, business department; and Orazio Fumagalli, professor, art.

In personal letters to each of them, Chancellor Robert S. Swanson praised their contributions to the university.□

# *Music complex named for Pritchard*

The music complex in the Applied Arts Center was named in memory of Lynn Pritchard during an open house and ceremony, May 1.

Pritchard was music department chairman and band director at Stout until his death Dec. 18, 1983, as the result of an automobile accident south of Houghton, Mich. Pritchard joined the Stout staff in 1965. In addition to his responsibilities as music department chairman, he served as director of the university concert band, stage band and instrument ensembles. He also served as director of Menomonie's Ludington Guard Band.□

# *Dan Levinson to speak during fall conference*

A conference titled "Seasons of Adult Life" will be offered during homecoming, Friday, Oct. 17. The conference will feature Dan Levinson, principal author of the best selling book "The Seasons of a Man's Life." The book focuses on a 10-year study of the male adult life cycles.

Levinson is also a professor of psychology at Yale University's School of Medicine.

Cost of the conference is \$25 and includes lunch. Reservations may be made up to Sept. 28 by writing to Stout's Department of Human Development, Family Living and Community Educational Services, School of Home Economics, Room 125 Home Economics Building, University of Wisconsin-Stout, Menomonie, Wis. 54751. A check accompanying the reservation should be made out to UW-Stout.

The conference is part of the Marybelle Hickner symposium on aging, made possible through Hickner, who is a professor emeritus.□

# *Grant puts computers in physics lab*

A new microcomputer-based physics laboratory will be established at Stout through an \$11,000 equipment grant from the National Science Foundation to the Stout physics department.

The grant carries a dollar-for-dollar match requirement from the university. Allen Hilgendorf, project director, said that the new laboratory will consist of 12 stations, each of which will include an Apple IIe computer, interfaced measurement modules, shared printer and specially developed software.

A series of 30 laboratory software packages, written by Hilgendorf and Robert Foley, will be a central component of the laboratory. These software packages will assist and direct student procedures, monitor and verify measurements, and aid in analysis.

Computers will digitally measure such variables as temperature, magnetic field strength and voltage. Each semester more than 400 students are expected to use the laboratory, which should be operational by this fall.□

# *Sabatino resigns as dean*

David Sabatino, dean of Stout's School of Education and Human Services, has resigned effective Sept. 1. He has been at Stout since 1982.□

# Class Notes

1925-1969

Hope Lathrop Wellstein Dip. '25 is retired from teaching home economics and was presented the "Women of the Year" award by the Business and Professional Women of Geneseo, Ill., where she resides. She also has been active in numerous community organizations. Violet Zastrow '41 is retired from missionary service and resides in Fort Washington, Pa. James '42 and Julia Maurin Hill '42 are retired. James taught industrial arts and Julia taught physically handicapped preschool children. Carole Hermann Kadie-Smith '43 resides in Lexington, Va., and restores historic homes. Stewart '46 and Mary Engebretson North '46 reside in Gainesville, Fla., and spend the summer at New Auburn. Donald Brill '47 is retired after 25 years with the Wisconsin Board of Vocational, Technical and Adult Education, and is a visiting professor with CVTAE at Stout. Charles Richardson BS '48, MS '53 is the district director of Western Wisconsin Technical Institute in La Crosse. Ray Siggens '52 is vice president and partner of King Sales and Engineering, and resides in San Jose, Calif. Carol Koch Chivers '55 is bookkeeper for the University of Arizona Cooperative Extension Service and received their 1985 Extension Staff Person of the Year award. Harlan Giese '57 resides in Urbandale, Iowa, and is executive director of the Iowa Vocational Education Council. He received a leadership award from the Iowa Vocational Association. John Simons '60 is director of research and development for Star Sprinkler Corp., and resides in Greendale. Kenneth '62 and Karen Johnson Maahs BS '62, MS '62 reside in Marathon. Kenneth is president and Karen is treasurer of Galvin Tractor, Abbotsford. Karen DeWold Alderden '63 is junior high home economics teacher and food service director for Randolph High School. Ken Bonner '63 is director of manufacturing for GV Medical Inc. and resides in Burnsville, Minn. Loretta Cruger Delvaux '63 is an interior design consultant for Decorator Outlet, Green Bay. Judith Johnson Gates '63 is working on her master's degree in guidance and counseling at Stout. Brian Walker '64 is vice president of the First Wisconsin Bank in Manitowoc. W.C. Dubats '65 is a contracts administration manager for FMC, Minneapolis. Charlotte Nehring Janeczko '65 is culinary consultant for Cuisinart for eastern Iowa. Mary Neick '67 teaches home economics at the middle school in Mequon. Julie Olson Backus BS '68, MS '71 is director of instruction with the Kewaskum School District. Marsha Cooke '68 is assistant staff manager at Mountain Bell and resides in Aurora, Colo. Leslie Haight '68 is manager of the motor vehicle training development group at Creative Universal Inc., Warren, Mich. Anna Goggins Jund '68 is director and nutritionist for Racine city health department WIC program. LaMont Meinen '68 is general manager of engineering for Tecumseh Products for the State of Wisconsin, and resides in Kiel. Terry Thomas '68 is a counselor and men's head basketball coach at Marian College, Fond du Lac. Bonnie Nielsen Wigen BS '68, MS '71 is

Dunn County Extension home economist and resides in Menomonie. Patricia Pagenkopf Heller MED '69 is a school psychologist at the New York League for the Hard of Hearing in New York and has a private practice in school psychology in Branford, Conn. Anton Sokol MS '69 is midwestern service manager for HIAC/ROYCO Instruments Division of Pacific Scientific. He works on and certifies electronic instrumentations, ranging from nuclear power plants to space shuttle Columbia.

1970-1975

David Carney BS '70, MS '77 is coordinator for career and vocational education at Wisconsin Rapids Public Schools. James Peterson '70 teaches auto mechanics and is chairman of the business, home economics and industrial arts departments at Joliet Central High School, Joliet, Ill. John Bannen '71 is general manager of Lincolnshire Country Club, Crete, Ill., and resides in Crown Point, Ind. Gerald John '71 is general manager of the Red Mill Restaurant, Milwaukee. Bob Plank BS '71, MS '75 is sales manager for the Radford Co., Oshkosh. Catherine Hiemenz Wieland '71 resides in Glenview, Ill. She has received a master of management degree from J.L. Kellogg Graduate School of Management, Northwestern University, and is assistant vice president of Evanston Hospital. She has also received nominee status in the American College of Healthcare Executives. Kenneth Wiesman '71 is draftsman and project coordinator for Wausau Metals Corp., Wausau. Michael Ziebell '71 is manufacturing staff services manager at Appleton Papers Inc. Sandra Holten-Athneil '72 is a teacher for the Sheboygan School District and resides in Grafton. John "Jack" Smith '72 is personnel clerk for Stokely U.S.A., Merrill. Robert Bullis '73 is materials manager for the Racine operation of Webster Electric Co. Inc., a division of Sta-Rite Industries Inc. Greg Geiss '73 is owner of Dairy Treat in Wisconsin Rapids. Mark '73 and Nancy Larson Talbot '73 reside in Cumberland. Mark is manager of parts, sales and service for William G. Talbot, and Nancy is secretary and bookkeeper. James Ellingson '74 farms in Osceola. Alan Ridgeway '74 is vice president of manufacturing, and director of engineering and customer service for Bido-Med Devices Inc., Madison, Conn. William Anderson MS '75 is audiovisual coordinator at Lincoln High School in Wisconsin Rapids. Bert Appelbaum '75 is vice president of Appelbaum and Son, and resides in Cleveland Heights, Ohio. John '75 and Rachel Krause Miller '75 reside in Jackson, Mich. John is part owner of H&M Welding and Fabricator Inc.

1976-1978

Dennis Beety '76 is chief of police in Menomonie and has graduated from the FBI National Academy in Quantico, Va. Douglas Bloom MS '76 is a school psychologist with Missoula School District #1 and resides in Lolo, Mont. Christopher Graham '76 is food service director of Hospitality Unlimited Inc.,

and resides in Ripon. Richard Haase '76 and his wife are serving with the Peace Corps in the Caribbean area. He has been developing a vocational rehabilitation program for the islanders. Stephen Hamann '76 is vice president of Hamann Construction Co., Manitowoc. Helen Jankowski MS '76 is a nursing instructor at Waukesha County Technical Institute. Mary Slatky '76 is employed by Svoboda Industries Inc., Kewaunee. Brian '77 and Kimberly Polzin Brown '78 reside in Brooklyn Park, Minn. Kimberly has been chosen an Outstanding Young Woman of America for 1985. She is also communications director for the National Farmers Union and serves on the board of directors of the Cooperative Printing Co. in Minneapolis. She is a director on the board of the Stout Alumni Association and serves as class co-chairman for the Capital Campaign. She recently completed additional broadcasting coursework at Brown Institute, Minneapolis. Tracy Baldrini Burmeister '77 is special education resource room instructor and tutor at Illinois Central College and resides in Peoria, Ill. Karen Gramstad Chilson '77 is JTPA Coordinator for CESA 10 in Rice Lake. Kathleen Leary MS '77 is archivist at the Oregon Shakespearean Festival Association in Ashland, Ore., and a substitute reference librarian at the Ashland Public Library. Ervin Marschall '77 is a marketing representative for Belmark Inc., DePere. Gordon McFarlane MS '77 is a home school counselor and student assistance program coordinator with the Plymouth School District. Randy Williams '77 teaches industrial arts at Washington Junior High School in New London, where he resides. Joel Braatz '78 is actuarial assistant for Wausau Insurance Companies and resides in Merrill. Allen Cockeram '78 is manager of quality assurance at Miller Electric Manufacturing Co., Appleton. Scott Grover BA '78 is technical analyst for Super Valu Stores Inc., Eden Prairie, Minn. Tim Goggins '78 is assistant to the vice president of marketing for LORAM, a railway maintenance company in Hamel, Minn. Robert McDonnell '78 is senior industrial engineer for Norplex, La Crosse. Leslie Adair Schumacher '78 is a buyer of gift and health care items for Garden of Eden stores in Minneapolis and St. Paul, Minn. Philip Steinhofer '78 is vice president of Hurckman Mechanical Industries Inc. Jean Crownhart Zeithaml '78 is consumer educator for Consumer Credit Counseling Service in Summit County, Akron, Ohio.

1979-1981

James Baumer '79 is an assistant actuary with Minnesota Mutual Life Insurance Co., St. Paul, Minn., and has been named a Fellow of the Society of Actuaries. Ellen Grubb Blackwell '79 is meeting coordinator for American Production and Inventory Control Society Inc., Falls Church, Va. Ken MS '79 and Margo Stuart De Lucca '81 reside in Columbia, Mo. Ken is associate professor in the industry and technology department of Millersville University, and Margo is an educational consultant for Tacony Corp., St. Louis. Patti Herman BS '79, MS '84 is serving as a Peace Corps volunteer in Belize, Central America. Douglas Hicks MS '79 is

assistant editor at Woodsmith Publishing in Des Moines, Iowa. **Raymond Schmidt** '79 is mechanical design engineer at IMECO Inc., Polo, Ill. **Leo Schindler** '79 is assistant vice president of the Menomonie Farmers Credit Union. **Herbert Stuart II** '79 is a captain in the U.S. Air Force and is a senior flight commander with the 112th Strategic Missile Wing at Malstrom AFB, Montana. **Patrick Bartling** '80 is senior project engineer with Allen Bradley, drives division, Milwaukee and Cedarburg. **Mark Brodersen** '80 is food service director at Cargill Inc., representing Saga Corp., and resides in Minneapolis. **Maribeth Van Steenkist Dickman** '80 is manager of Diamond Savings and Loan Co., Van Wert, Ohio. **Peter Friederich** '80 is a mechanical engineer for Martin Marietta in Denver. **JoAnn Hayes Harrison** '80 teaches at Reynold High School in Troutdale, Ore. **Rick** '80 and **Laurie Haseleu Hinze** '80 reside in Eagan, Minn., and he is a systems engineer for PPT in Minneapolis. **John** '80 and **Peggy Phillips Holm** MS '85 reside in Chicago. John is a student at the Lutheran School of Theology and Peggy teaches third grade. **Marysue Crouch Klanderman** '80 is marketing manager and Elan Services manager for First Wisconsin National Bank of Fond du Lac. **John Marose** '80 is a construction supervisor for Wisconsin Electric Power and resides in Waukesha. **John Onushko** '80 is warranty administrator for the Tennant Co., Minneapolis. **Sue Schweitzer** '80 is an elementary teacher in the Montessori program for Minneapolis Public Schools. **Wes Aylsworth** '81 is manufacturing engineer for the data systems division of Northern Telecom, Minnetonka, Minn. **Mary Bartling** '81 is sales manager for the Boston Store, Milwaukee. **James Welch** '80 is a test engineer for VHSIC Technology Corp., Bloomington, Minn. **Mary Bierman** MS '81 is director of the Wausau Insurance Co., Employee Assistance Program and has written articles for professional journals. **Donna Fain Brown** '81 is senior associate cost engineer at IBM Corp., San Jose, Calif. **Julie Domek** '81 is a customer service manager for Target Stores in Houston. **Paul Haugland** '81 teaches industrial education at River Falls Public Schools. **Mark Hayford** '81 is a design engineer with AT&T Information Systems in Naperville, Ill. **James Pierce Ed.S.** '81 is supervisor of the business and marketing division at Fox Valley Technical Institute, Appleton. **Mark** '81 and **Karlene Stark Prodoehl** '81 reside in Shorewood where he is a systems engineer for IBM Corp., and she is a sales assistant for a financial services company. **Kenneth Smott** '81 is department manager for James River Corp., Portage, Mich.

# Marriages

## 1969-1985

Jeanie Kozar '69 to Bill Wood, Oct. 12, Minneapolis, where couple resides. Bonita Shafer BA '72 to Ron Drabowicz. Judith Lehman '74 to Lt. Robert Ellis, Jan. 11, Mountain View, Calif. Couple resides in San Jose. Maureen Bannon to James Schmidt '80, Jan. 28, Oaklawn, Ill. Couple resides in Blue Island, Ill. Diane Boie '80 to Carl Orth, Oct. 12, Stanley. Couple resides in Bloomington, Minn. Marysue Crouch '80 to Joel Klanderman, June 22, 1985. Couple resides in Fond du Lac. Jo Ann Hayes '80 to Tom Harrison, Feb. 16, 1985. Couple resides in Troutdale, Ore. Jennifer Goletz to Mark Hayford '81, Dec. 7. Couple resides in Riverside, Ill. Debra Jacobson to John Marshall '81, Nov. 30, Hudson. Couple resides in Worthington, Minn. Jessie Loken to Wes Aylsworth '81, May 18. Vicky School '81 to Roger Mendez, Dec. 28, Appleton. Karlene Stark '81 to Mark Prodoehl '81, Sept. 28, Whitefish Bay. Couple resides in Shorewood. Margo Stuart '81 to Ken De Lucca MS '79, Aug. 11, 1984. Couple resides in Lancaster, Pa. Anne Webb to Andrew Schrank '81, Dec. 28, Sheboygan, where couple resides. Jean Ackley '82 to David Kriesel, December, Whitehall. Couple resides in West Allis. Brenda Stream to Jeff Julich '82, Jan. 25, Sheboygan, where couple resides. Sheila Prisock to Kenneth Peterson '82, March 15, Moss Bluff, La. Lorna Thorpe '82 to Daniel Wulterkens, March 22, Appleton. Lynn Dymanyk '83 to Todd Anderson '81. Couple resides in Shakopee, Minn. Karen Hansen '83 to Timothy Peterson, Nov. 30, Waupaca. Couple resides in Easely, S.C. Valerie Marcks '83 to Michael Vanderpool, Oct. 18, Pulaski. Couple resides in Creva Coeur, Ill. Carolyn Simpson '83 to Michael Hopkins, Feb. 22. Couple resides in El Paso, Texas. Tawni Weycker '83 to John Gustavson, Jan. 3, Green Bay. Couple resides in Al Kohbar, Saudi Arabia. Colette David to Robert Dums '84, April 5, Auburndale. Couple resides in San Diego. Cynthia Fugate to Randall Settersten '84, Dec. 28. Menominee, Mich. Dawn Kiesow '84 to Rod Henning '85. Couple resides in Overland Park, Kan. Diane Anderson '85 to Gary Olson, Oct. 26, Osseo. Couple resides in Glenwood City. Wendy Corbin to David Kijek '85, Dec. 28, Schofield. Couple resides in St. Paul, Minn. Teresa Griep to Jeffrey Hederer '85, Dec. 28, Marshfield. Couple resides in Quantico, Va. Connie Jones MS '85 to Robin Tomski MS '85, Dec. 21, Camp Douglas. Couple resides in Hastings, Minn. Kris Karcz '85 to Mark Kipping '85, Dec. 28, Pulaski. Couple resides in San Diego. Chris McNamara '85 to John Kinzel, Nov. 30, Bird Island, Minn. Couple resides in Grafton. Catherine Shaver to Eugene Lavin '85, Nov. 23, Wayzata, Minn. Couple resides in San Francisco. Jodi Williams '85 to Jeffrey Meyer '83, Oct. 19, South Milwaukee. Couple resides in Sheboygan.

# Births

## 1969-1984

A daughter, Cassandra, Jan. 1, 1985, to Harold Arneson '69. A daughter, Meredith Joy, Feb. 18, to Vincent MS '71 and Susan Wiegand Bolton '70, San Diego. A daughter, Abigail Christine, March 17, to Michael and Barbara Elfstrom Clawson '72. A daughter, Sara Marie, Nov. 25, to Phillip and Paulette Opsal Emberson '72, Waunakee. Twins, Steven and Diana, Sept. 6, to Chuck '72 and Sue Schlosser. A son, Benjamin Joseph, Nov. 23, to Greg '76 and Karen Scharl Cichon '77, Madison. A daughter, Danielle Marie, to Gary and Chere Meyer Bork BS '77, MS '82. A son, Jordan Parker, Dec. 18, to Michael '78 and Jill Rand Buss '77, River Falls. A son, Matthew Thomas, Feb. 25, to Thomas and Margaret "Peggy" Johnson Steiger '78, Brainerd, Minn. A daughter, Anne Elizabeth, Aug. 27, to Lawrence '79 and Patricia Hansen Brady '78, Madison. A daughter, Lindsey Jane, Sept. 1, to Skip and Marcia McGuire Marshall '79. A daughter, Kjirsten Mary, Nov. 16, to Steve BS '79, MED '82 and Susan DeMuth Yahr, '83. A son, Nathan Thomas, to Tom and JoAnn Hayes Harrison '80, Troutdale, Ore. A son, John Wells, Oct. 31, to John '80 and Kimberly Andruss Quinlan '80. A daughter, Richelle Erin, Jan. 8 to Susan Walleen Bozzy '81, Orlando, Fla. A son, Christopher Steven, Nov. 2, 1984, to Kenneth '81 and Sandra Peterson Smott '81, Portage, Mich. A son, Stephen Patrick, Feb. 3, to Jan and Gail Anderson Porter '81, Atlantic, Iowa. A son, Taylor James, Nov. 19, to Tom and Teri Zarnoth Shannon '81, Neenah. A son, Joseph, Feb. 3, to Kevin and Rosemary Melis Haaker '82, Burnsville, Minn. A son, Matthew John, Sept. 18, to Bob '82 and Paula Morgan Komro '81, Charleston, W. Va. A daughter, Stephanie Renee, Dec. 30, to Kirby and Sandy Brown Paulson '82, St. Louis Park, Minn. A son, Calvin Lacy Sechrist, June 4, to Charles and Deborah Sechrist Siler MS '82. A daughter, Ashley Brooke, Jan. 13, to Jeffrey and Kathleen Jenssen Weisensel '82, Wheeling, W. Va. A daughter, Nicole Erin, Dec. 4, to Mick '82 and Laura Yahr Kaschmitter '83, Maplewood, Minn. A daughter, Heather Alice, June 17, 1985, to David '83 and Therese Bogenhagen, St. Paul, Minn. A son, Erik Anthony, Nov. 18, to Robert '83 and Carla Konopacki Jacobson '84, Menasha. A son, Ian Geoffrey, Feb. 22, to Dave '84 and Chrys McConnell, Hopkins, Minn.

# Deaths

## 1921-1978

Axel Kise Dip. '21, BS '26, 88, Dec. 30, St. Paul, Minn. Barbara Bloom Johnson '22, July 16, 1984, Dearborn, Mich. Walter Wasmuth '22, March 18, Bayfield. Vera Weinzirl Cox Dip. '24, 82, Aug. 17, Waco, Texas. Walter Kube '31, 78, March 25, Lake Mills. William Olson '36, January, Oak Park, Ill. Harley J. Van Valkenburg '36, January, Chetek. William Campbell BS '40, MS '66, 69, April, La Crosse. William Byer '41, April, Germantown, Tenn. Richard Gerstner BS '63, MS '73, July 1985, Sheboygan. Jonathon "Josh" Oberman '69, March 23, Stoughton. Helen Crabtree MS '73, March, 1985, Atascadero, Calif. Anthony Korger '76, 36, Feb. 7, Appleton. Lynda Geurkink Grawe '78, 29, Chippewa Falls.

# People You Know

by Pat Reisinger  
Alumni Director

The eight-week spring phonathon, a part of the Toward Century II Alumni Capital Campaign, was completed the last week of April. Two teams of 20 students called alumni from the Louis Smith Tainter House. If the students didn't reach all of you by phone, you probably received a letter requesting your contribution. Thank you for your generous support. Eighty thousand dollars was pledged during the phonathon, placing the alumni segment of the Toward Century II Campaign over the top of the challenge goal of \$400,000. The following written pledges have been received as of May 7 in the campaign's six categories: Foundation Board, \$133,831; Alumni, \$560,448; Faculty and Staff, \$240,491; Menomonie Community, \$32,618; Foundations, Corporations, and Friends, \$145,322; and Twin Cities, \$29,650. Written pledges total \$1,142,360. If you pledged \$25 or more, you are entitled to the alumni directory. It should be in your mailbox within four weeks after your contribution is received.

**Chapter Happenings:** We saw many of you at regional chapter get-togethers. Chancellor Robert '49 and Penny Swanson '48 were in Honolulu, Hawaii on March 5. John Rantala '51 and Kazuko "Jiggs" Kuboyama '57 were responsible for the local arrangements. The chancellor's program included a talk about the present university happenings and a videotape tour of the campus. The following were honored with mementos from Stout: earliest graduate in attendance, David Feirer '31; most recent graduate, Steven Perry '83; farthest from home, Hugh '36 and Vets Braker Moltzau '36; and birthday, Jiggs Kuboyama '57 and Nancy Takasaki.

Professor Lee Smalley, department of industrial and marketing education, attended the Washington State alumni gathering in Seattle in March. Carol Peterson Jez '61 was the Seattle coordinator. Smalley's presentation on "Futurism" was enjoyed by the group of 25 alumni and friends. The earliest graduate in attendance was Betty Milnes Peterson '40 from Lake Oswego, Ore., and the most recent graduate was Terri Alexander '83 from Bremerton, Wash. Rich Sprecher '80 coordinated the Springfield, Ill., area alumni get-together in conjunction with the student hotel and restaurant sales visit in February. Rich is a member of the Stout Alumni Association Board of Directors and the room division manager of the Ramada Renaissance in Springfield.

Approximately 75 alumni and friends attended the Kansas City alumni social held at the Westin Crown Center in conjunction with the Industrial Technology Education Association conference in March. Area residents who were in attendance included Peter Jackson BS '59, MS '59, Thomas and Ivanelle Garthwaite Manning '42, Adrian '42 and Lucille Dorsch, and Michael '83 and Patti Glockzin Dunn '82. Several Stout faculty members and alumni attending the conference from around the country joined them for the gathering.

Faculty members joined alumni for a social

in Green Bay for the Wisconsin Vocational Association convention held at the Embassy Suite Hotel and Convention Center. Jack Notebaart '29 was honored as the earliest graduate, along with the American Technical Education Association Teacher of the Year Gary Gade BS '67, MS '74. Gary is a graphic arts instructor at the Madison Area Technical School.

The Milwaukee area alumni held their spring meeting at the Holiday Inn West. Jim Bensen MS '63, dean of the School of Industry and Technology, presented the program "Technology and the Future." Mary Goplin Wilde '80 and Randy '79 and Ruth Kremer Pickering '80 coordinated the activities. The winners in the Stout memento drawings included Mark Spoerk '86, Gerhard Roe '33, Joe Benkowski BS '69, MS '69, Stephen Scheil '72 and George Jackson BS '35, MS '50.

The Hyatt Lincolnwood, Chicago, was the site of the Chicago area April alumni gathering. The organizers were Scott Cabot BS '78, MS '79, Susan Mark Roman '80, Peggy Weber '79 and Bill Whitmore '79. Sixty-five alumni and friends were present to hear Robert Dahlke BS '58, MS '69, director of Career Planning and Placement at Stout, give an overview of Stout's employment record and a look at the future employment picture. Rich Sprecher '80 was presented with a Stout memento for being the farthest from home, Carole Horgen Hendricks '62 for the earliest graduate honor, Merrill Green BS '79, MS '84 for birthday honors and Viet Nguyen '85 for most recent graduate and the most recently employed.

The Stout Alumni Association Fellowship of \$3,000 was awarded to Sandra Quilling Buran '79 of Yucaipa, Calif. She has been admitted into the doctoral program in education at the University of California, Riverside. This fellowship is awarded to a Stout graduate annually and may be awarded for several types of study: research projects, doctoral studies, and seminars or workshops that would aid in career advancement. Applications are available at the Alumni office and must be postmarked on or before Feb. 1.

Three outstanding alumni were recognized at the annual Ethnic Services Center spring banquet. Georgia Lonetree '76 is the home living specialist at the Shonto Boarding School, a western Navajo agency, Bureau of Indian Affairs, Shonto, Ariz. Georgia plans, organizes, implements and evaluates a coordinated guidance program in two residence halls. She also supervises 35 educational aides in the dormitory setting. Alexander Dickerson MS '81 is a mental health counselor for the Bad River Health Services, Ashland. He is responsible for case management, client assessment, record keeping of home visits, outreach counseling and client advocacy development. Frederico Zaragoza MS '78, Ed.S '84 is the director of business and industry relations for the Milwaukee Area Technical College. He administers several continuing education activities and federal projects including cooperative education, economic development apprenticeship programs, labor market information, and seminars and workshops in response to the needs of business, industry, organized labor and economic development organizations. Congratulations to the outstanding alumni and to Jill Werner Stanton '72 and Sten

Pierce who were recognized as outstanding faculty. Ray Rivera was named the outstanding supportive services staff member.

**Who's In The News:** Recently the St. Paul Pioneer Press highlighted working "Couples Who Cook." Featured in the article that included pictures and recipes were Rick '79 and Liza Bauer Chatt BS '81, MS '83 who both enjoy cooking. Their favorite entrees are hot dishes. Liza works as a dietitian at the Lyngblomsten Care Center in St. Paul, and Rick continues his schooling and works as a baker at Cub Foods in St. Paul. Many meals are eaten on the run. If you're looking for new, quick, creative meals, you may want to contact Rick or Liza for their favorite delectable main entrees.

A letter from Walfrid "Bill" Rose '28 of Sun City, Ariz., included a news article about Gil Dahlen '24 who retired as a counselor from the Detroit school system in 1968 and for the past 18 years has been active in the Sun City Sawdust Engineers Club. The club makes toys, games and special projects for indigent children. He was honored this past month for his service to the organization. "His quiet manner, his professional skill and his innovative genius will be greatly missed by all his fellow members," wrote Rose. Gil and his wife Olga are moving to Winter Haven, Fla.

Gerry Rassbach Luepke '63 supervisor of Consumer Information Services for Economics Laboratory Inc., St. Paul, Minn., has been named "Business Home Economist of the Year" by the Twin Cities Chapter of Home Economists in Business. This award is presented for outstanding individual achievement, as well as contribution to profession, employer and community. Chris Landry Stratton '75 is a home economics teacher at Menomonie High School and has been named the "Wisconsin Home Economics Teacher of the Year." Both Gerry and Chris were honored at the American Home Economics Association national convention in Kansas City.

The Stout Packaging Program, under the leadership of Marvin Kufahl BS '55, MS '56 has attained national attention again this year with the awarding of the prestigious Robert C. Myers Scholarship to one of the university's packaging students, Sarah J. Schneider. It is the second consecutive year in which a Stout packaging major has received the award sponsored by the Packaging Education Foundation of Reston, Va. Sarah, a junior, is the daughter of Peter '59 and Dorothy Walter Schneider '60 of Wisconsin Rapids.

**Stout Parents Association:** The Alumni Association has initiated a Parents Association. The group will work with the Parents Weekend Committee to plan programs for the parents, advise the newsletter committee and formulate plans for the Parents Phonathon. Any parent interested in joining the steering committee may call the Alumni office at (715) 232-1151.

**Homecoming Weekend:** Homecoming weekend is Oct. 18. The classes of 1946, 1956, 1961, 1966 and 1971 are having their class reunions. Everyone is invited to join those reunion classes at all of the Homecoming activities. The Stout Blue Devils will be playing the UW-La Crosse football team. Join students, friends and alumni in backing the team and the new football coach, Rich Lawrence.

### Stout Alumni Program Selected as Finalist:

Stout's alumni annual giving program has been selected as a finalist in both the Sustained Performance and Improvement categories of the 1986 U.S. Steel Alumni Giving Incentive Awards program. The awards program is administered by the Council for Advancement and Support of Education with a grant from the United States Steel Foundation. Through the program, colleges, universities and independent schools are honored for distinguished achievement in the development of alumni support. Dave Williams, executive director of the Stout Foundation, attributed the improvement to "increased phonathon work in the fall of 1984 and the alumni realizing the importance of private funding and responding to Stout's needs." Pat Reisinger, alumni director at Stout, said, "With the additional alumni programs, indentification of donors and support will continue to grow."
